CHAL-0148
Copy 1 of 7

2 July 1958

MEMORANDUM FOR: Director of Operations DPS/DCI

25X1A

ATTENTION :

DESTROYED

SUBJECT : Urgent Processing of Original Negative
and WC on 6012

1. This note is to confirm my message by phone to you on 1 July 1958 as follows: The Navy believes, on the basis of collateral information, it is important that as soon as possible they have a chance to look at 6012. It is my understanding that you have made arrangements with the factory to have this material available on Thursday evening, 3 July, at HTAUTOMAT, and normal procedures for preliminary examination of incoming film will take place in HTAUTOMAT at that time.

2. In view of your report that the factory will not be working over the Fourth of July, it did make sense to have the original negative brought down with the WC to permit:

a. Efficient and rapid reproduction of selected prints for the community by HTAUTOMAT, and

b. An opportunity for technical consultants to CHALICE to examine this product of the B configuration.
